

BOTOX

Post Injection Instructions

1. “Squint and frown, just don’t lie down”
 - a. Stay upright for the next 2-4 hours.
 - b. Move the muscles that Dr. Badame injected for the next 2-4 hours.
2. The effect of Botox begins in 2-3 days and takes full effect in 2-4 weeks.
3. If you would like a prescription for a topical numbing medicine to ease the discomfort of the needle, please call the office for the prescription prior to your next visit.
4. Enjoy your new look!
